Dear Sir/Madam:

It is my understanding that this proposed rule (RIN 1210 - AB 32) will restrict my ability to trade options within my IRA account.

This would be DEVASTATING to my financial situation.

I'm retired, age . . . Approximately 40% of my annual cash flow comes via taxable IRA withdrawals. Virtually all of this 40% consists

of option premium generated from selling cash secured puts and covered calls.

I have taken the time to learn proper option trading, use a couple on-line brokerage accounts and make all decisions myself (no broker input/solicitation whatsoever).

I'll really be in a bind if I can't continue this strategy within my IRA. I won't be able to meet my expenses because I'd no longer be able

to use my IRA capital to produce option premium income.

Don't punish the 'little guy.' That's me. Thank you for reading this.
